

Lean Six Sigma Green Belt Certification Program

Online & In-Person
Blended Learning
in English or Spanish

3PBrava delivers Lean Six Sigma Green Belt certification using MoreSteam's proven training model, which blends independent study with instructor-led virtual study halls where participants can ask questions, practice with additional examples and case studies, and dive deeper into the tough stuff. Alongside training, participants will complete a Lean Six Sigma Green Belt project with the guidance of a Master Black Belt. This approach gives participants the tools and confidence needed to execute Green Belt projects in their own organizations after receiving certification.

Throughout the program, participants will acquire a solid foundation in Lean Six Sigma principles, explore the specific roles and responsibilities of a Green Belt leader, and gain proficiency in statistical tools for data analysis.

Who Is This Program For?

This course is ideal for individuals looking to start a career in operational excellence or gain a deeper understanding of process improvement and Lean Six Sigma.

Examples of those who can benefit:

- Professionals across functions improving how work gets done
- Early-to-mid career employees building practical problem-solving skills
- Team leads improving performance, reducing waste, delivering results
- Process improvement contributors using structured, data-driven approaches

Project Support

5 VIRTUAL

Instructor-Led Study Halls

1 YEAR

Subscription Access
to EngineRoom® Data
Analysis Software

Offered by

3PBrava.com | +1.610.883.6543 | contact@3pbrava.com

Program Schedule

Week 1

Kick-Off Webinar

Week 4

Virtual Study Hall #1: Define

Week 9

Virtual Study Hall #2: Measure

Week 14

Virtual Study Hall #3: Analyze I

Week 21

Virtual Study Hall #4: Analyze II

Week 24

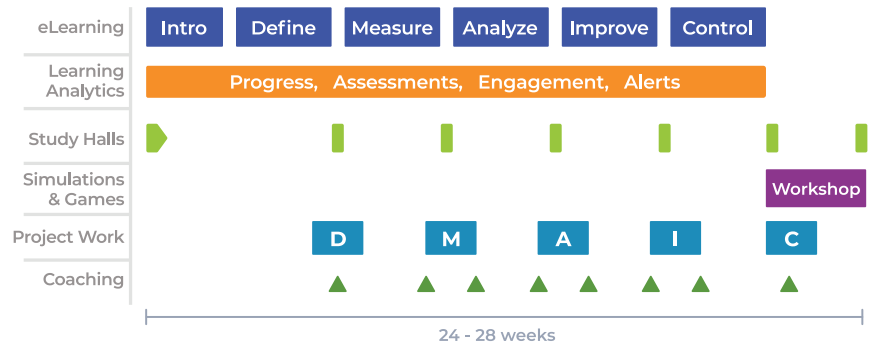

Simulation Workshop:

- InBox® Lean Sim
- Sigmaprew DMAIC Sim

Week 25

Virtual Study Hall #5: Improve

Blended Learning Program Structure

This program is designed to ensure your success. Our blended learning model combines eLearning, coaching, simulations, and project work in a structured system designed for comprehension.

Example Topics Covered

Define

Project Selection
8 Forms of Waste
Starting a Project
Leading Change
Voice of the Customer
Process Mapping
Value Stream Mapping

Improve

Benchmarking
FMEA
A3 One-Page Report
Continuous Flow
Kaizen Toolset
Piloting Solutions

Measure

Basic Statistics
Histograms & Variation
Graphical Summaries
Sigma Level
SPC Control Charts
Process Capability
St. Sigma Case Study

Control

Visual Management
5S Process
TPM
Best Practices
Standardized Work
Project Close Out

Analyze

Finding Root Cause
Cause & Effect
Correlation & Regression
Determining Sample Size
Hypothesis Testing
Two Means T-Test

“ I really enjoyed the course. I have started applying many of the methodologies into my day-to-day routines, and I can see the difference.

– Abdi Hertz

About MoreSteam

We build software to help people make important things work better.

MoreSteam enables organizations of all sizes to advance their performance by delivering powerful, scalable online training and technology for enterprise process improvement.

About 3P Brava

3P Brava, Inc. is a business consulting firm specialized in end-to-end supply chain optimization, committed to helping companies increase profits through better business processes and a more capable workforce.

Its founder, Maria Arraiza-Montoux, is a freelance supply chain and operational excellence expert with 30+ years of industry experience.

Certification

After training is completed, Green Belt candidates must pass the comprehensive exam with a score of 80% or higher and complete one project for review to receive certification.

Pricing & Details

The enrollment fee covers all costs for the course and materials. Participants must have certification completed within 18 months.

Call +1-610-883-6543 or e-mail contact@3pbrava.com for pricing inquiries.
